Forteau, located among a string of communities on the southern Labrador coast, has ministry potential to more than 1700 people and is within a few kilometres of the Quebec border. The area, which has the Labrador terminus of the Strait of Belle Isle ferry, is now a strategic link north to Cartwright. It has had a PAON assembly since 1978.

The assembly, with consistent attendance between 25-30 also continues to have a vibrant youth and women's ministry.

The Cannings, who have been in ministry since 1988, came to Forteau in 2002, after previous ministry at Hopedale and Postville in Northern Labrador.
