THE MORGAN'S
Winston and Annie

Lushes Bight is located on Long Island (population 300) in the Green Bay and is reached by a 5 minute ferry ride. It has had a PAON assembly since the 1960's. The nearby assembly of Robert's Arm has "mothered" this assembly for a number of years and is a positive example that needs to be duplicated in other areas. This assembly has approximately 20 regular attendees.

The Morgans moved to this assembly in 2009. Pray for their ministry to bring a revival to this island community.
