THE BURTON'S
Melvin and Rita

Nipper's Harbour (pop. 170) is on the eastern side of the Baie Verte Peninsula and has been a Home Missions Assembly since 1986. It has an illustrious history as a fishing centre, and still has many large fishing boats. The community has been affected by out-migration over the years. However, Sunday church attendance has been consistent between 15-20.

The Burton's began their ministry here in August 2009.

Pray for a strong commitment and a consistent testimony from the assembly in this community.
