Cartwright NL A0K 1V0

David and Bessie moved to this Labrador community in September 2017. Cartwright, population 552, is on the coast of Labrador and has been a ministry centre for PAONL since the 1950's. The community received new life as the northern terminus for the southern Labrador highway and a port of call for the Lewisporte to Goose Bay Ferry. With the bulk of assistance coming from the Robert's Arm Assembly, a new church building was erected in 2003. Average attendance is 23.

Pray that the Gifford's will lead the assembly to impact the community with clear presentation and a consistent testimony of the gospel.
