Gros Morne Community Church is strategically located in the heart of Gros Morne National Park on the West Coast of Newfoundland. We are a diverse, growing congregation whose mission is to reach beyond our community into those surrounding us with the love of Jesus. We operate bi-weekly programs in Rocky Harbour and Parsons Pond that serves adults and children from 8 different communities. This includes ministry to children and youth, women's ministries, weekly worship services, adult bible study, and our community food pantry. Apart from our weekly ministries we are involved in the community through local partnerships with Western Health, local schools, and various community organizations to serve the people the Gros Morne area.

We want to express our appreciation to those of you who have chosen to support our families and ministry both prayerfully and financially. We are trusting God to guide us as we continue to dream for this beautiful area. We believe the opportunities are endless and we cannot wait to see God's plans come to fruition. Our desire, as a church, is that every person we reach would know that they have a story, and their story matters.
