In 2012 we embarked on an incredible journey to Cambodia with our family. God has placed a strong call on our lives and we love living out that journey every single day! Some of the areas of ministry we pour ourselves into are; teaching at the Cambodian Bible Institute, managing and running a student drop in center at the second largest university in Phnom Penh, administering the Child Care Plus program which has grown to over 350 children as of 2015, a team member on the Children's Committee for the country, and mentoring church planters. Emily and Sophia are flourishing where God has placed us and are part of the ministry with us. God has been doing great things and we are seeing much fruit to the work being done. Thank you for being a part of it all and believe with us for great things!
